

*Fred & Jennifer Breitenwischer*

*Dear Friend,*

*Nearly one year ago, Jennifer and I were searching for sound financial advice. We had worked with a financial planner in Columbus, Ohio but after contacting him over the phone last year, we soon discovered he was no longer in the financial planning business. Luckily he was still dedicated to his former clients and said he would locate someone in St. Louis that could help us.*

*Soon thereafter we met Russ McMillan of TRIAD Wealth Systems. From the instant I met Russ, I knew Jennifer, Cole, Noelle and I were in good hands. The first time we met with Russ he questioned us about our desires and financial goals for the future. From that point on we have been working together to obtain those goals. We have talked endless hours with Russ regarding income, retirement, college savings, insurance, taxes, 401K, inheritance, and the list goes on... He has empowered us with the knowledge that we can control our own financial assets, and don't have to rely on the stock market, 401K or Social Security.*

*Russ has an outstanding vision for wealth building and has a gift when it comes to coaching and teaching it to others. I thought I learned a lot from our previous advisor, but Russ has opened our eyes to a whole other world of economics and personal finance. We truly enjoy working with Russ and value his friendship.*

*Meeting with Russ changed forever the way we think about money, wealth and protecting love ones. Jennifer and I hope you can take the time and meet with Russ.*

*Sincerely,*

*Fred and Jennifer*
